Dear LADOT General Manager Seleta Reynolds,

Attached please find a letter from the Friends of King requesting attention to be focused along Fountain/Hyperion Avenues as part of the city's new Vision Zero Action Plan.

A portion of these roadways is included in the Vision Zero High Injury Network, and runs directly beside Thomas Starr King Middle School, one of the largest middle schools in Los Angeles, with over 1,900 students.

Thank you for your attention to this matter, and we would appreciate a reply.

Jennie Chamberlain
Friends of King, President
